

Amendments to the Claims:

This listing of the claims will replace all prior versions, and listings, of claims in the application:

1-5. (Cancelled)

6. (Currently Amended) ~~[[An]]~~A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising according to claim 5, a heavy chain variable domain further comprising
~~a heavy chain variable region comprising one of the following amino acid sequences selected from the group consisting of: SEQ ID No. 13, SEQ ID No. 14, and SEQ ID No. 15, and a light chain variable domain selected from the group consisting of: SEQ ID No. 16, SEQ ID No. 17, SEQ ID No. 18, and SEQ ID No. 19.~~

Claims 7- 16 (Cancelled)

17. (Currently Amended) A pharmaceutical composition comprising ~~a humanised an~~
~~altered~~ anti-MAG antibody or functional fragment thereof which binds to and
neutralizes MAG according to claim [[3]]6, together with further comprising a
pharmaceutically acceptable diluent or carrier.

18-26. (Cancelled)

27. (New) The humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG according to claim 6, further comprising a constant part or fragment thereof of a human light chain and a constant part or fragment thereof of a human heavy chain.

28. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

- a heavy chain variable region of SEQ ID No. 13 and
- a light chain variable region of SEQ ID No. 16.

29. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

- a heavy chain variable region of SEQ ID No. 13 and
- a light chain variable region of SEQ ID No. 17.

30. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

- a heavy chain variable region of SEQ ID No. 13 and
- a light chain variable region of SEQ ID No. 18.

31. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

- a heavy chain variable region of SEQ ID No. 13 and
- a light chain variable region of SEQ ID No. 19.

32. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 14 and

a light chain variable region of SEQ ID No. 16.

33. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 14 and

a light chain variable region of SEQ ID No. 17.

34. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 14 and

a light chain variable region of SEQ ID No. 18.

35. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 14 and

a light chain variable region of SEQ ID No. 19.

36. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 15 and

a light chain variable region of SEQ ID No. 16.

37. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 15 and

a light chain variable region of SEQ ID No. 17.

38. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 15 and

a light chain variable region of SEQ ID No. 18.

39. (New) A humanised anti-MAG antibody or functional fragment thereof which binds to and neutralizes MAG comprising:

a heavy chain variable region of SEQ ID No. 15 and

a light chain variable region of SEQ ID No. 19.
